Here is the **All Weather Portable Outdoor Kitchen** you've been waiting for! The **Outfitter Camp Kitchen XL** is designed for ease of use as well as functionality and portability. Now you don't have to bend over or kneel to use your sink. The kitchen sink shelf base is an amazing 38 inches high! Our Outfitter Kitchen XL has ample shelf space for storage as well. We use a siphon foot pump to deliver purified water to deep sink basins (w/ drains) via a tall spigot perfect for hand washing, dish washing, fish cleaning, brushing teeth or just getting a drink! The Outfitter Kitchen XL also comes with hanging rack and hooks ideal for lanterns, hats, towels and utensils.

• The **Sawyer Filtration System** will provide 100,000 gallons of fresh purified water with its 0.1 Micron absolute hollow fiber membrane inline gravity fed filter. The filter removes 99.9999% of all bacteria and protozoa!

The **Outfitter Camp Kitchen** is also available with many of the same features. A slimmer shelf design with a lighter waste water collection system (no drains and catch basins) takes up less space, but still comes with the Sawyer Filtration, the siphon foot pump, and shelving.

**Dimensions:** 67" h x 18" d x 36" w ~ 60" w (w/ filter system)
